To the reader

This codebook is part of the data FSD1226 archived at the FSD (Finnish Social Science Data Archive). The dataset has been described in as much detail as possible in Finnish and English. Variable frequencies, variable and value labels, and missing values have been checked. If necessary, the data have been anonymised. The data and its creators shall be cited in all publications and presentations for which the data have been used. The bibliographic citation may be in the form suggested by the archive or in the form required by the publication. The bibliographic citation suggested by the archive:

Advisory Council for Youth Affairs (Nuora): Finnish Youth Survey 2002 [dataset].

Version 3.0 (2018-08-20). Finnish Social Science Data Archive [distributor]. <http://urn.fi/urn:nbn:fi:fsd:T>
FSD1226

The user shall notify the archive of all publications where she or he has used the data. The original data creators and the archive bear no responsibility for any results or interpretations arising from the reuse of the data.

The codebook contains information on data content, structure and data collection, and includes a list of publications wholly or in part based on the data, according to publication information received by the FSD. The second part of the codebook contains information on variables: question texts, response options, and frequencies. The third part contains indexes.

Variable distributions presented in this codebook have been generated from the SPSS files. Distribution tables present variable values, frequencies (n), frequency percentages (%), and valid percentages (v. %) which take into account missing data. All distributions are unweighted. If the data contain weight variables, these will be found at the end of the variables list. In some cases frequency distributions have been substituted by descriptive statistics. Categorised responses to open-ended questions are not always included in the codebook. Distributions may contain missing data. The note "System missing (SYSMIS)" refers to missing observations (e.g. a respondent has not answered all questions) whereas "Missing (User missing)" refers to data the user has defined as missing. For example, the user may decide to code answer alternatives 'don't want to say' or 'can't say' as missing data.

The codebook may contain attached files, the most common one being the questionnaire.

CESSDA Classification: employment; social behaviour and attitudes; youth

Series description

The data belong to the series:

Finnish Youth Surveys

Advisory Council for Youth Affairs (Nuora), nowadays called the State Youth Council, started to produce Youth Surveys in 1994. This survey series charts attitudes and expectations of Finnish young people aged 15 - 29. Each survey contains both current questions and recurring questions which are repeated over time, enabling the study of long-term attitude changes. The main themes include attitudes to education, working life, social security, spending, drug use, and young people's willingness to participate in order to influence decision-making.

Abstract

The survey probed young people's views on education, working life, democracy, inequality, unemployment, Finland's NATO and EU membership. Respondents were asked how much information about education opportunities (post lower secondary) they had received from e.g. study advisers, parents, employment offices, friends or Internet. Future plans concerning work and studies were surveyed. Next theme dealt with a hypothetical situation where public expenditure would have to be cut: respondents were asked whether cuts could be made in health care, education, certain social benefits, defence, housing, agricultural subsidies, care of the elderly, cultural services, etc.

One theme focused on social exclusion of young people. Respondents were questioned what might be the reasons for it (e.g. own indifference, lack of education, help, work, friends, hobbies or belief in future). Opinions about the acceptability of illegal drug use were canvassed. Respondents' own drug, alcohol and tobacco consumption was charted. Political participation was studied by asking whether respondents intend to vote in next elections and whether they would be willing to express their opinions by participating in a demonstration, strike, consumer boycott, violence, or by becoming a candidate in elections, signing a petition, etc. Views were probed about which issues the government should especially promote. Respondents evaluated the importance of facilities provided for young people and other aspects of youth work in their community.

Respondents' satisfaction with their financial situation and life in general were queried. Expectations for the future were charted by asking respondents to rate the importance of achieving certain things by the age of 35 (e.g. family and children, permanent job, high standard of living, ownership of dwelling, own car, participation in politics, good friends, travel). Respondents

were asked which party they would feel closest to if parliamentary elections were held at that moment. Background variables included respondents' sex, age, respondents' and their parents' education level, employment situation, province and region of residence and type of municipality.

1.3 Structure and collection of the data

Country: Finland

Geographic coverage: Finland

Analysis or observation unit type: Individual

Universe: Finnish-speaking young people who live in Finland, aged between 15 and 29, excluding the Åland Islands

Collection date: August 2002 – September 2002

Data collector(s): Gallup Finland

Data producer(s): Advisory Council for Youth Affairs

Mode of data collection: Telephone interview

Type of research instrument: Structured questionnaire

Time period covered: 2002

Time method of the data collection: Longitudinal: Trend/Repeated cross-section

Number of variables and cases: The data contain 134 variables and 1801 cases.

Sampling procedure: Information not available

Sample size 1800.

1.4 Use of data

Data appraisal

The variables identifying municipality of residence and postal code have been removed from the data.

FSD does not have Gallup Finland's report of the survey. The description is based on the data, questionnaire and publication "Nuorisobarometri 2002". The archive has no information about the sampling method used.

FSD study number [FSD_NO]	5
FSD edition number [FSD_VR]	5
FSD case id [FSD_ID]	6
Education greatly increases my chances of getting a job [K1_1]	6
Staying in the labour market requires continuous education [K1_2]	6
Working life demands so much from employees nowadays that many people soon burn out [K1_3]	7
My education has given me more than sufficient knowledge of what constitutes being a good citizen [K1_4]	7
I would be willing to move to another municipality to get a job [K1_5]	8
I would prefer to take a temporary job rather than live on unemployment benefit, if the net income would be the same [K1_6]	8
It is likely that I will need to change jobs several times during my career [K1_7]	9
People tend to exaggerate the problem when talking about the exclusion of young people [K1_8]	9
Democracy functions well in Finland, and provides citizens with sufficient opportunity to influence decision-making [K1_9]	9
Social disparity has increased between different population groups [K1_10]	10
Things go well in Finland even if I personally do not vote in elections [K1_11]	10
To reduce unemployment, work should be shared and more jobs created by shortening working hours [K1_12]	11
We should all sacrifice some of our own interests to ensure the international competitiveness of our country [K1_13]	11
The current government has succeeded in reducing unemployment [K1_14]	11

3. Indexes

More people would vote if Internet voting were possible [K1_15]	12
Finland must join the Nato after the next national elections [K1_16]	12
The switch to the Euro has increased my interest in the decision-making in the European Union [K1_17]	13
EU membership has proven to be beneficial to Finland [K1_18]	13
On a scale from 4 to 10 (where 10 is the best) and based on your own experience, how would you grade Finnish primary and lower secondary education? [K2]	13
How much information have you received on (post-lower secondary) education options from: Study adviser [K3_1]	14
How much information have you received on (post-lower secondary) education options from: Parents [K3_2]	14
How much information have you received on (post-lower secondary) education options from: The media [K3_3]	15
How much information have you received on (post-lower secondary) education options from: Employment center [K3_4]	15
How much information have you received on (post-lower secondary) education options from: Friends [K3_5]	16
How much information have you received on (post-lower secondary) education options from: Teachers [K3_6]	16
How much information have you received on (post-lower secondary) education options from: People connected with your hobbies (instructors etc.) [K3_7]	17
How much information have you received on (post-lower secondary) education options from: The Internet [K3_8]	17
Which of the following do you regard as the most important in a job? [K4]	17
For what type of organisation would you prefer to work? [K5]	18
Do you intend to work abroad in the next five years? [K6_1]	18
Do you intend to study abroad in the next five years? [K6_2]	19
Do you intend to establish your own business in the next five years? [K6_3]	19
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Health care [K7_1]	19
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Education [K7_2]	20
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Unemployment benefits [K7_3]	20
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Defence [K7_4]	21
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Housing benefits [K7_5]	21
If the Finnish national economy were faring badly and public expenditure had to be cut, how	

much should be cut from: Agricultural subsidies [K7_6]	22
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Sport facilities [K7_7]	22
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Youth work [K7_8]	23
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Care of the elderly [K7_9]	23
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Benefits for families with children [K7_10]	23
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Cultural services [K7_11]	24
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Environmental protection [K7_12]	24
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Reducing central government debt [K7_13]	25
If the Finnish national economy were faring badly and public expenditure had to be cut, how much should be cut from: Law enforcement [K7_14]	25
To what extent is the exclusion of young people caused by: Low education level [K8_1] ...	26
To what extent is the exclusion of young people caused by: Lack of work [K8_2]	26
