All data are from Inter-Parliamentary Union's *Chronicle of Parliamentary Elections*, years 1985-2004.

If data on women's representation are not available from an election, they are estimated for the lacking years. The estimated percentage is the same as in the previous or next election from which data are available. Estimated data are indicated by asterisk *.

- = No elected parliament.

*Liberia. Estimation.

* Rwanda. Without the 24 nominated women deputies, women's representation in Rwanda's parliament would be 26.8 percent.
