To the reader

This codebook is part of the data FSD3251 archived at the FSD (Finnish Social Science Data Archive). The dataset has been described in as much detail as possible in Finnish and English. Variable frequencies, variable and value labels, and missing values have been checked. If necessary, the data have been anonymised. The data and its creators shall be cited in all publications and presentations for which the data have been used. The bibliographic citation may be in the form suggested by the archive or in the form required by the publication. The bibliographic citation suggested by the archive:

The user shall notify the archive of all publications where she or he has used the data. The original data creators and the archive bear no responsibility for any results or interpretations arising from the reuse of the data.

The codebook contains information on data content, structure and data collection, and includes a list of publications wholly or in part based on the data, according to publication information received by the FSD. The second part of the codebook contains information on variables: question texts, response options, and frequencies. The third part contains indexes.

Variable distributions presented in this codebook have been generated from the SPSS files. Distribution tables present variable values, frequencies (n), frequency percentages (%), and valid percentages (v. %) which take into account missing data. All distributions are unweighted. If the data contain weight variables, these will be found at the end of the variables list. In some cases frequency distributions have been substituted by descriptive statistics. Categorised responses to open-ended questions are not always included in the codebook. Distributions may contain missing data. The note "System missing (SYSMIS)" refers to missing observations (e.g. a respondent has not answered all questions) whereas "Missing (User missing)" refers to data the user has defined as missing. For example, the user may decide to code answer alternatives 'don't want to say' or 'can't say' as missing data.

The codebook may contain attached files, the most common one being the questionnaire.

Abstract

The study charted Finnish political attitudes, opinions and behaviour in the 2017 municipal elections in Finland. The study was part of a project of the Foundation for Municipal Development (KAKS) which also funded data collection.

First, the respondents' interest in politics and municipal election campaigning was charted as well as what sort of sources the respondents used for municipal election communications and information. The respondents were also asked where they received information regarding the election, parties and candidates and what they considered important election themes in the municipal elections. It was also examined whether the respondents were mainly interested in national or local issues in the municipal elections.

Next, the respondents were asked to evaluate whether they agreed or disagreed with a set of attitudinal statements regarding satisfaction with democracy, voting, parties, the Government and the Parliament, municipal politics, the importance of municipal elections, and the residents' ability to impact local matters. The respondents were also asked how important they considered having an influence on different municipal services, e.g. education, public transport, land use planning, libraries and healthcare. The respondents' attitudes toward the social and healthcare reform ('Sote reform') were also examined.

Finally, the survey charted the respondents' political activity, motives for voting and voting behaviour with questions regarding active citizenship in the past, how they would prefer to impact matters in their municipality, and political party preference. Depending on whether the respondents had voted or not in the 2017 municipal elections, reasons for not voting or for choosing the party and candidate were enquired.

Background variables included age, gender, region of residence, type of municipality of residence and residential area, education level, marital status, economic activity and occupational status, occupational group and sector, membership in a trade union or professional association, self-perceived social class, annual gross income of the household, household composition,

mother tongue, unemployment in the previous year, and the political party the respondent had voted for in the 2017 and 2012 municipal elections.

1.3 Structure and collection of the data

Country: Finland

Geographic coverage: Finland

Analysis or observation unit type: Individual

Universe: Persons residing in Finland who were entitled to vote in the 2017 municipal elections, excluding the Åland Islands

Collection date: 21.4.2017 – 12.5.2017

Data collector(s): Kantar TNS Finland

Mode of data collection: Self-administered questionnaire: Paper, Self-administered questionnaire: Web-based (CAWI)

Type of research instrument: Structured questionnaire

Time period covered: 2017

Time method of the data collection: Cross-section

Response rate: 63.9

Number of variables and cases: The data contain 219 variables and 1726 cases.

Sampling procedure: Probability: Multistage

A national phone number register was used to recruit a total of 2,644 respondents who gave their consent for participating in the study. This group of respondents was stratified in multiple stages according to region of residence, gender and age to correspond to the national population of those entitled to vote in Finland.

Of the persons recruited for the study, 1,726 (63.9%) responded to the survey. The respondents could choose to respond either online or by mail; 1,078 participants responded online, and 648 respondents mailed in their response.

1.4 Use of data

Data appraisal

The data do not include open-ended responses to variable q5. Variable q41 regarding year of birth was removed because the data already contain the age variable bv2. Those persons were removed from the data who were reached in the phone recruitment but who eventually did not respond to the survey.

To prevent identification of respondents, variable q43 denoting municipality of residence was removed from the data as well as variable q52 concerning the respondent's membership in a trade union or professional association. Extreme values in the age variable bv2 were recoded as

missing, and values in the income variable q54 were coarsened.

Kysymyksiin vastaaminen:

Lukekaa kysymys huolellisesti ennen vastaamista.

Rastittakaa kuulakärkikynällä sopiva vaihtoehto tai kirjoittakaa kysytty tieto sille varattuun tilaan. Älkää mielellään käyttäkö lyijykynää.

 Mikäli teette merkintöjä vastausruutuun, johon ette ole niitä tarkoittanut, pyydämme että mustaatte koko ruudun.

Valitkaa kunkin kysymyksen kohdalla vain yksi, parhaiten sopiva vaihtoehto, ellei kysymyksen kohdalla erikseen mainita, että vaihtoehtoja voi valita useita.

Eräiden kysymysten kohdalla on täydentäviä vastaamisohjeita.

Muistakaa vastata kaikkiin kysymyksiin – merkitkää myös kieltävä vastaus näkyviin joko rastittamalla vaihtoehto "ei" tai merkitsemällä "0" vastaukselle varattuun tilaan.

HUOM! Parissa kysymyksessä vastaus kirjoitetaan lyhyesti sille varattuun tilaan.

9. Mitä mieltä olet seuraavista väittämistä?

	Täysin samaa mieltä	Jokseenkin samaa mieltä	Jokseenkin eri mieltä	Täysin eri mieltä	En osaa sanoa
Minulla ei ole mitään sananvaltaa siihen, mitä maan hallitus ja eduskunta päättävät	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Puolueiden kautta kansalaisten mielipiteet tulevat päätöksenteossa huomioon otetuiksi	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
On jokaisen oma asia, käyttääkö hän vaaleissa äänioikeuttaan vai ei	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Tärkeät yhteiskunnalliset kysymykset pitäisi entistä useammin päättää kansanäänestyksellä	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pidän äänestämässä käyntiä kansalaisvelvollisuutena	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Poliitikot eivät välitä tavallisten ihmisten mielipiteistä	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Joskus politiikka vaikuttaa niin monimutkaiselta, että en oikein ymmärrä, mitä on tekeillä	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Puolueet ovat kiinnostuneita pelkästään ihmisten äänistä, eivät heidän mielipiteistään	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
On yhdentekevää, mitkä puolueet ovat hallituksessa, harjoitettava politiikka ei siitä muutu	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

10. Mitä mieltä olet seuraavista kuntapolitiikkaa koskevista väittämistä?

	Täysin samaa mieltä	Jokseenkin samaa mieltä	Jokseenkin eri mieltä	Täysin eri mieltä	En osaa sanoa
Mielestäni ymmärrän melko hyvin tärkeitä kunnallispoliittisia kysymyksiä	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Poliittinen päätösvalta on kotikunnassani keskittynyt aivan liian harvoille henkilöille	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Voin vaikuttaa oman kuntani asioihin äänestämällä kuntavaaleissa	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Minulla ei ole mitään sananvaltaa siihen, mitä kunnan-/kaupungin hallitus ja -valtuusto päättävät	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
On ainakin yksi puolue, joka ajaa minun etuani kunnallispolitiikassa	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kuntademokratia toimii omassa kunnassani hyvin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kuntavaalien tuloksilla ei ole nykyään paljonkaan merkitystä kunnassani harjoitettavan politiikan kannalta	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kunnan-/kaupunginvaltuutetut menettävät yleensä pian valituksi tultuaan kosketuksen äänestäjiin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kotikuntani kunnallispoliittikkoihin voi yleensä ottaen luottaa	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kuntavaalit eivät ole yhtä tärkeät vaalit kuin eduskuntavaalit	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

11. Kuinka tärkeää seuraaviin kuntapalveluihin vaikuttaminen on sinulle?

Äänestämäni puolue oli minulle omassa kunnassani ainoa kunnan vaihtoehto	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Valitsin ensin puolueen ja vasta sitten ehdokkaan	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Olisin aivan hyvin voinut äänestää jota kuta toista ehdokasta siitä puolueesta, jota äänestin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Äänestysratkaisuni perustui paljolti mielipiteisiini valtakunnan tason politiikasta	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Halusin näpäyttää hallitusta tai hallituspuoluetta	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
