Interviewer: What is in your opinion a digital resource e.g. how they relate in your teaching of language and literature?

Interviewee 3: All those resources you can catch through the internet and of course there are huge area when you go to the libraries and it's depending what you can use and what you are supposed to ehm access. Digital, especially digital, I would say everything you have and can share and use digitally.

Interviewer: Is there something specific that you can relate when you prepare to teach your subject? Something that has specially impacted you?

Interviewee 3: Do you mean in a teaching situation, a specific source or instrument? (orig. tarkoitatko opettamistilannetta vai välinettä vai lähdettä?)

Interviewer: We will speak of examples later on, it was just if there is one aspect of digitality that has caught your attention or you find most impacting in your language and literature teaching.
